ACM SIGCOMM

Call for Papers

The 4th International Conference on emerging Networking EXperiments and Technologies (ACM CoNEXT 2008), to be held in Madrid, will have the primary goal of promoting stimulating exchanges between various international research communities. Following in the footsteps of past editions of ACM CoNEXT Student Workshop, ACM CoNEXT 2008 Student Workshop will provide a platform for graduate students in the areas of computer networks and data communication to publicize their ongoing research work through posters. This will be also an opportunity for graduate students to obtain feedback and learn what problems are being tackled by fellow students. It will also be an opportunity for students to network with other students and senior researchers.

We invite submission of 1-2 page abstracts from graduate students worldwide describing their ongoing research work for potential presentation at the ACM CoNEXT 2008 Student Workshop. Research work that addresses non-standard or controversial problems and approaches are of particular interest, even if they are in an early stage.

Topics of interest include (but are not limited to):

- Internet measurement and modeling
- Wireless and mobile networks
- Ad hoc and sensors networks
- Economic aspects of the Internet
- Network security issues
- Multimedia networking
- Peer-to-peer and overlay networks
- Routing and traffic engineering
- Delay and disruption tolerant networks
- New networking protocols and architectures
- Autonomic and dependable communications
- Networked systems applications and services

Selected abstracts will be published in the ACM CoNEXT 2008 proceedings and authors will required to present their work through a poster session. The posters will be presented throughout the duration of the ACM CoNEXT 2008 conference (9th – 12th December).

Please follow the ACM CoNEXT 2008 guidelines (http://www.sigcomm.org/co-next2008/papersubmission.html) EXCEPT for the following two differences:

- Paper is limited to TWO (2) pages only. This includes ALL figures, tables, appendices, etc.
- Please provide only author name and affiliation; it is not necessary to add PAPER ID and number of pages.

Posters should have the following format: 40x32 inches. ACM CoNEXT 2008 will provide board and easels for presenting posters. Authors are responsible for printing and mounting their posters.

Submission Deadline: 3rd October 2008
Notification: 24th October 2008
Camera Ready Version: 30th October 2008
CoNEXT 2008 Student Workshop: 9th December 2008
Conference Chairs
Benoit Donnet, Université catholique de Louvain, Belgium (benoit.donnet@uclouvain.be)
Boon Thau Loo, University of Pennsylvania, USA (boonloo@cis.upenn.edu)
Ryuji Wakikawa, Toyota ITC, Japan (ryuji@jp.toyota-itec.com)

Program Committee
Tohru Asami, Tokyo University, Japan
Prithwish Basu, BBN Technologies, USA
Roberto Canonico, Università di Napoli Federico II, Italy
Aline Carneiro Viana, INRIA, France
Jon Crowcroft, Cambridge University, UK
Cheng Tien Ee, AT&T Research, USA
Lars Eggert, Nokia, Finland

Eric Fleury, ENS/INRIA, France
Ling Huang, Intel Research Berkeley, USA
Youki Kadobayashi, NAIST, Japan
Chon Kilnam, KAIST/KEIJO, Korea
Ben Leong, National University of Singapore, Singapore
Bin Liu, Tsinghua University, China
Jonathan M. Smith, University of Pennsylvania, USA
